Dear Jula,

On behalf of the academic Librarians and Archivists at the University of Western Ontario, I am writing to thank you and your organization for your generous support of their recently concluded strike action.

Your \$1000 contribution not only made it possible for UWOFA's Librarians and Archivists to walk a picket line knowing there was financial support for their efforts; it also, and perhaps more importantly, gave them an important sense of solidarity with other academics, librarians, students and staff elsewhere. You will be able to count on UWOFA to stand with you should it become necessary.

Your support of their effort is an important part of the success story here at UWOFA. You have my deepest gratitude.

Sincerely,

A handwritten signature in black ink that reads 'Bryce Traister'.
